THE HEART *Behind the Mission*

*There are some moments
in life that never leave you.*

One of those moments was standing
beside a father on one of the hardest
days of his life.

As I wrapped my arms around him,
there were no words—only the heavy
realization that his infant daughter
would not be coming home.

At that moment, it felt as though
the difference between reunification
and separation came down to
something simple:

*A safe plan.
A stable home.*

That moment became part of the
vision behind **Project HOME**—
a developing family wellness initiative
in Saint John, New Brunswick.

Our vision is to create spaces where
families can spend meaningful time
together, strengthen bonds, and begin
rebuilding stability in safe and
compassionate environments.

We believe
families deserve
support before crisis
becomes separation.
